1970 AMERICAN MOTORS CORPORATION COLOR IDENTIFICATION

TWO-TONE COMBINATIONS

The first part of the number identifies the body color; the last part identifies the roof color. (Example—Combination P-82—P-72 indicates the body is finished in Bayshore Blue and the roof in Frost White.)

LOCATION OF PAINT CODE PLATE

AMERICAN MOTORS

Paint code plates are located on the left front door lock pillar (below the door locks) or on the front door body hinge pillar.

LUCITE® Acrylic Lacquer is recommended for SPOT REPAIR, panel repair and overall refinishing of all original automotive finishes.

"CENTARI" Acrylic Enamel is recommended for small area, panel repair and overall refinishing.

DULUX® Enamel may be used for panel repair and overall refinishing.

NOTE: It may be necessary at times, to tint colors to produce a satisfactory match due to normal weathering and changes in color standards.
