ORDER ONLY BY "DUCO" STOCK ORDER NUMBER

INTERIOR COLORS

All Exterior Body Colors are also used as interior colors.

DUCO tinting colors, for the various formulas, are shown where available. These colors are listed in the order of their importance in the event that tinting is necessary.

Color combination numbers appear on a plate on the right top portion of the firewall under the hood.

NOTE: Most colors in this bulletin are available in both DUCO and DULUX; however, it should be noted that it is not always possible to make close matches in DUCO to DULUX colors and vice versa.

Every possible precaution is taken to provide the refinish trade with accurate DUCO and DULUX color matches. Due to circumstances beyond our control, we cannot be responsible for inaccurate color matches resulting from changes in standards by automobile manufacturers without our knowledge, change of car colors on aging, and color variances caused by application methods, etc. We will assume responsibility only for factory color matches to established Du Pont color standards.

As the accuracy of color matches made with the Du Pont Color Blending Service depends on the individual operating the equipment, we will assume responsibility only for the uniformity of our mixing enamels.

INTERIOR COLORS

DUCO Stock Order Number	Color
2003	†India Ivory
2240	†Twilight Turquoise
2241	†Dune Beige
2287-H	†Sierra Gold "Metalli-Chrome"
2288	†Adobe Beige

†Also used as exterior colors.

NOTE: A Du Pont mixing machine formula for DUCO Lacquer only will be available for the following 1956 Chevrolet Interior Colors.

DUCO Formula File Number	Color	Fisher Body No.
58423	Medium Gray	W-1836
59450	Tan	W-1119
59453	Medium Green	W-2222
59516	Blue	W-2228

DUCO tinting colors, for the various formulas, are shown where available. These colors are listed in the order of their importance in the event that tinting is necessary.

Color combination numbers appear on a plate on the right top portion of the firewall under the hood.

NOTE: Most colors in this bulletin are available in both DUCO and DULUX; however, it should be noted that it is not always possible to make close matches in DUCO to DULUX colors and vice versa.

Every possible precaution is taken to provide the refinish trade with accurate DUCO and DULUX color matches. Due to circumstances beyond our control, we cannot be responsible for inaccurate color matches resulting from changes in standards by automobile manufacturers without our knowledge, change of car colors on aging, and color variances caused by application methods, etc. We will assume responsibility only for factory color matches to established Du Pont color standards.

As the accuracy of color matches made with the Du Pont Color Blending Service depends on the individual operating the equipment, we will assume responsibility only for the uniformity of our mixing enamels and lacquers.

†Also used as exterior colors.

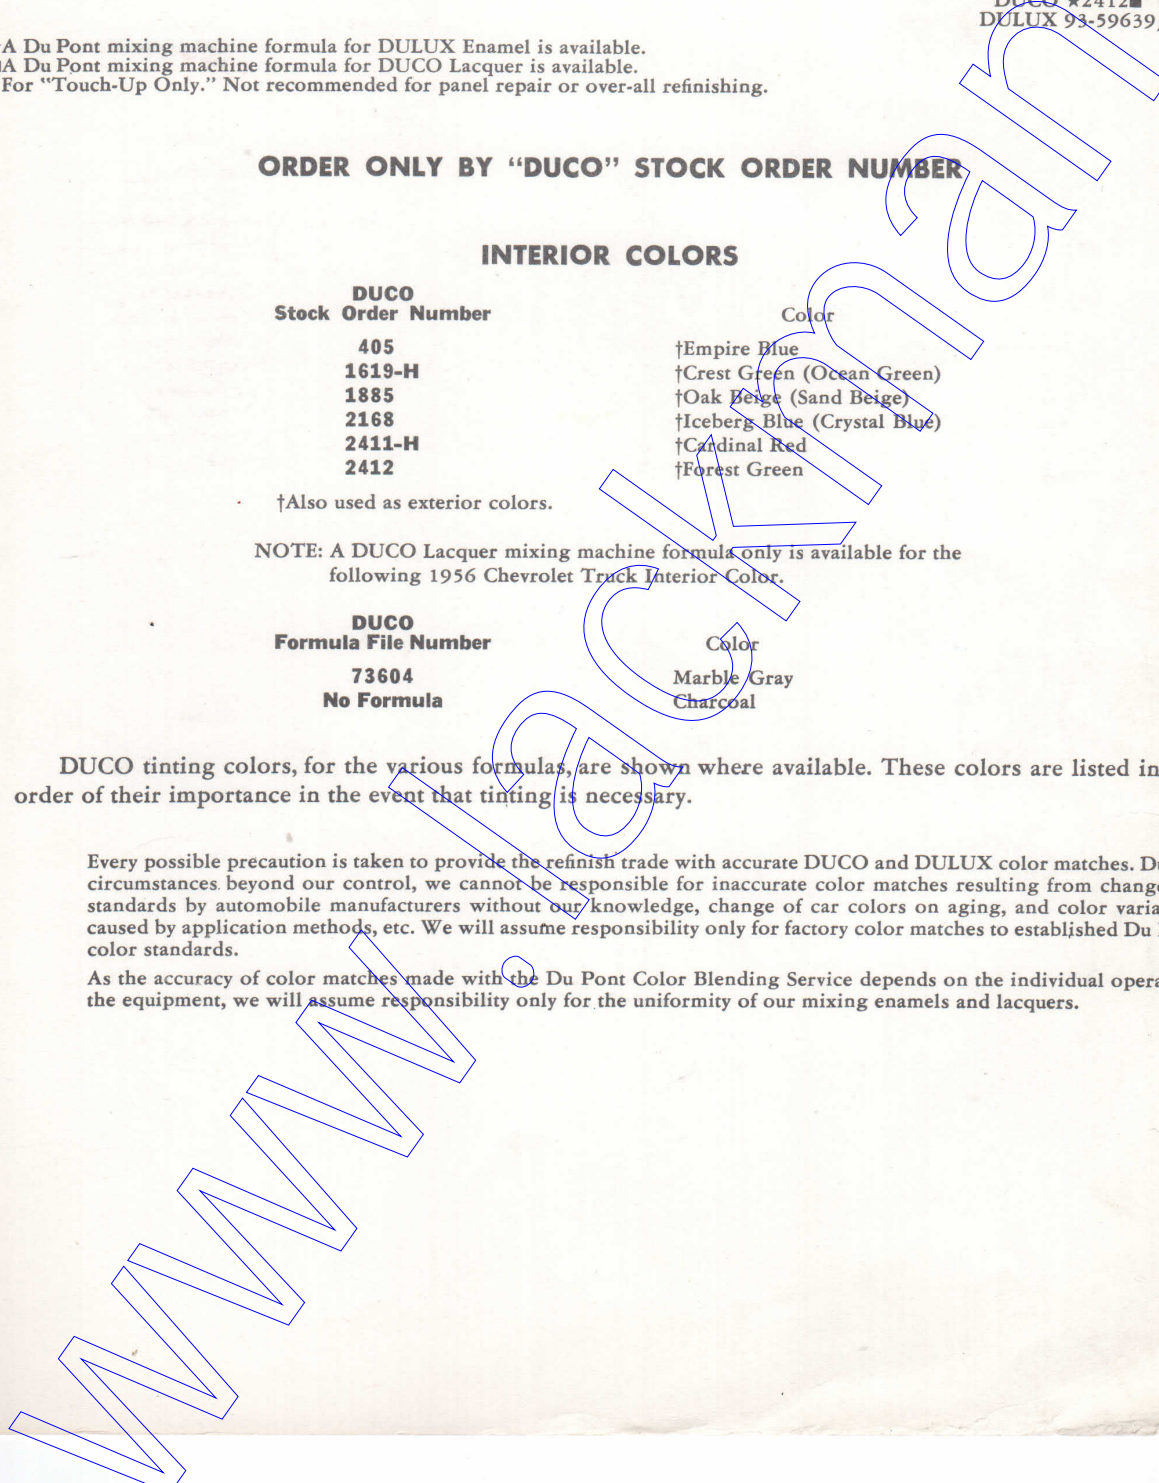

NOTE: A DUCO Lacquer mixing machine formula only is available for the following 1956 Chevrolet Truck Interior Color.

DUCO Formula File Number	Color
73604	Marble Gray
No Formula	Charcoal

DUCO tinting colors, for the various formulas, are shown where available. These colors are listed in the order of their importance in the event that tinting is necessary.

Every possible precaution is taken to provide the refinish trade with accurate DUCO and DULUX color matches. Due to circumstances beyond our control, we cannot be responsible for inaccurate color matches resulting from changes in standards by automobile manufacturers without our knowledge, change of car colors on aging, and color variances caused by application methods, etc. We will assume responsibility only for factory color matches to established Du Pont color standards.

As the accuracy of color matches made with the Du Pont Color Blending Service depends on the individual operating the equipment, we will assume responsibility only for the uniformity of our mixing enamels and lacquers.

NOTE: Most colors in this bulletin are available in both DUCO and DULUX and some in LUCITE; however, it should be noted that it is not always possible to make close matches in DUCO or LUCITE to DULUX colors and vice versa.

Every possible precaution is taken to provide the refinish trade with accurate DUCO, LUCITE and DULUX color matches. Due to circumstances beyond our control, we cannot be responsible for inaccurate color matches resulting from changes in standards by automobile manufacturers without our knowledge, change of car colors on aging, and color variances caused by application methods, etc. We will assume responsibility only for factory color matches to established Du Pont color standards.

As the accuracy of color matches made with the Du Pont Color Blending Service depends on the individual operating the equipment, we will assume responsibility only for the uniformity of our mixing enamels and lacquers.

NOTE: Every possible precaution is taken to provide the refinish trade with accurate DUCO and DULUX color matches. Due to circumstances beyond our control, we cannot be responsible for inaccurate color matches resulting from changes in standards by automobile manufacturers without our knowledge, change of car colors on aging, and color variances caused by application methods, etc. We will assume responsibility only for factory color matches to established Du Pont color standards.

As the accuracy of color matches made with the Du Pont Color Blending Service depends on the individual operating the equipment, we will assume responsibility only for the uniformity of our mixing enamels and lacquers.

Signet Red, Charcoal Metallic <i>or</i> Silver Blue Metallic	510-A and 522-B

NOTE: Most colors in this bulletin are available in both DUCO and DULUX and some in LUCITE; however, it should be noted that it is not always possible to make close matches in DUCO or LUCITE to DULUX colors and vice versa.

Every possible precaution is taken to provide the refinish trade with accurate DUCO, LUCITE and DULUX color matches. Due to circumstances beyond our control, we cannot be responsible for inaccurate color matches resulting from changes in standards by automobile manufacturers without our knowledge, change of car colors on aging, and color variances caused by application methods, etc. We will assume responsibility only for factory color matches to established Du Pont color standards.

As the accuracy of color matches made with the Du Pont Color Blending Service depends on the individual operating the equipment, we will assume responsibility only for the uniformity of our mixing enamels and lacquers.

ISSUED OCTOBER 8, 1958

1959 CHEVROLET COLOR COMBINATIONS

The "A" designation identifies over-all (solid colors) and they are so indicated on Sheets 1 and 2 of this Motor Car Service Bulletin.

TWO-TONE combinations of the RPO-B, C, D, and E series cars are as follows:

Series:	U (upper) Areas include the following:	L (lower) Areas include the following:
B (11-1200 except 11-1270-80)	Roof, Deck, upper Quarter except window reveal, Station Wagon Tail gate upper.	Lower body, window reveal, Station Wagon Tail gate lower.
C (11-1280)	Roof, Pillars, upper Quarter, Tail gate upper.	Lower body, Tail gate lower.
D (17-1800 except 17-1867)	Roof, Deck, upper Quarter.	Lower body.
E (15-1600)	Roof, Deck, upper Quarter.	Lower body.

The proper series identifying letter symbol appears on the car as a suffix immediately following the RPO Combination Number.

Color combination numbers appear on a plate on the right side of the dash panel, under the hood, immediately below the heater water control valve (Ranco Valve).

IMPORTANT 1959 CHEVROLET PASSENGER CARS FRONT AND REAR VALANCES AND GRAVEL GUARDS

The following parts of the 1959 Model Chevrolet Passenger Cars are finished and assembled in production in baked enamel colors matching the shade of the LUCITE Acrylic Lacquer on the surrounding body areas:

1. Body rear center valance.
2. Body rear outer valance, right and left hand.
3. Front bumper face bar valance assembly, right and left hand.
4. Gravel deflectors and wheels.

It is *imperative* that Du Pont Refinish DUCO be used for any service touch-up and repair of these particular parts in the field. LUCITE Acrylic Lacquer body colors *cannot* be used for this purpose.

It is also *imperative* that neither the DUCO factory-packaged material nor the DUCO mixing machine formula material be used for any service touch-up or repair of the LUCITE Acrylic Lacquer on the surrounding body areas.

Following are the DUCO colors that are recommended:

DUCO Stock Order Number	Code	Color	RPO Combination Number
2967-H	246-93146-H	Roman Red	923-A, 973 (L)
2968-H	202-92942-H	Cameo Coral Metallic	942-A, 989 (L)

NOTE: DUCO mixing machine formulas, only, are available for the following:

DUCO Formula File Number	Color	RPO Combination Number
92807■	Aspen Green Metallic	903-A
92808■	Frost Blue Metallic	910-A, 987 (L)

★A Du Pont mixing machine formula for DULUX Enamel is available.
††Also 1959 Chevrolet Passenger Car colors. See Sheets 1 and 2 of this bulletin for color chips.

† **WARNING: DULUX Color Blending formulas or factory-packaged DULUX matching LUCITE Acrylic Lacquer colors are not to be used for touch-up or panel repair of LUCITE Acrylic Lacquer finished vehicles.**

ORDER ONLY BY "LUCITE" STOCK ORDER NUMBER

INTERIOR COLORS

DUCO Stock Order Number	Color
2967-H	Red

NOTE: DUCO mixing machine formulas, only, are available for the following 1959 Chevrolet "Corvette" interior colors:

DUCO Formula File Number	Color
92808■	Blue Metallic
92945■	Turquoise Metallic

■A Du Pont mixing machine formula for DUCO Lacquer is available in quantities of a pint and upwards.

The 1959 Chevrolet exterior colors, appearing on Sheets 1 and 2 of this bulletin, are available in LUCITE Acrylic Lacquer. Refinish DULUX matches to these colors, with the exception of Cameo Coral Metallic, are also available.

The 1959 Chevrolet "Corvette" exterior colors, appearing on Sheet 3 of this bulletin, are available in LUCITE Acrylic Lacquer.

The 1959 Chevrolet Passenger Car Front and Rear Valance and Gravel Guard colors, listed on the reverse side of Sheet 1 of this bulletin, are available in DUCO factory-packaged or DUCO mixing machine formula material.

The 1959 Chevrolet Truck exterior colors, appearing on Sheets 4 and 5 of this bulletin, are available in DUCO and DULUX.

It should be noted that it is not always possible to make close matches in DUCO or LUCITE Acrylic Lacquer to DULUX colors and vice versa.

NOTE: Every possible precaution is taken to provide the refinish trade with accurate DUCO, LUCITE Acrylic Lacquer and DULUX color matches. Due to circumstances beyond our control, we cannot be responsible for inaccurate color matches resulting from changes in standards by automobile manufacturers without our knowledge, change of car colors on aging, and color variances caused by application methods, etc. We will assume responsibility only for factory color matches to established Du Pont color standards.

As the accuracy of color matches made with the Du Pont Color Blending Service depends on the individual operating the equipment, we will assume responsibility only for the uniformity of our mixing enamels and lacquers.
