 ■A Du Pont mixing machine formula for DUCO Lacquer is available.
 †"For Touch-Up Only." Not recommended for panel repair or over-all refinishing.

NOTE: Colors assigned "Z" suffix carry a special price. Consult your Distributor of Du Pont Refinishing Materials.

ORDER ONLY BY "DUCO" STOCK ORDER NUMBER

INTERIOR COLORS

DUCO Stock Order Number	Color
2379-H	†Polo Green
2383-H	†Pacific Blue

†Also used as exterior colors.

NOTE: A Du Pont mixing machine formula for DUCO Lacquer only will be available for the following 1956 Interior Colors:

Formula File Number	Color
59818	Golden Brown
No Match	Silver Gray Metallic

DUCO tinting colors, for the various formulas, are shown where available. These colors are listed in the order of their importance in the event that tinting is necessary.

Color combination numbers appear on a plate on the right side of the firewall under the hood.

NOTE: Most colors in this bulletin are available in both DUCO and DULUX; however, it should be noted that it is not always possible to make close matches in DUCO to DULUX colors and vice versa.

Every possible precaution is taken to provide the refinish trade with accurate DUCO and DULUX color matches. Due to circumstances beyond our control, we cannot be responsible for inaccurate color matches resulting from changes in standards by automobile manufacturers without our knowledge, change of car colors on aging, and color variances caused by application methods, etc. We will assume responsibility only for factory color matches to established Du Pont color standards.

As the accuracy of color matches made with the Du Pont Color Blending Service depends on the individual operating the equipment, we will assume responsibility only for the uniformity of our mixing enamels and lacquers.

INTERIOR COLORS

NOTE: DUCO mixing machine formulas only are available for the following 1957 Nash Interior Colors:

DUCO Formula File Numbers	Color	Part Number
82711	Green Metallic	N-43
82712	Blue Metallic	N-44

Color combination numbers appear on a plate on the right side of the firewall under the hood.

NOTE: Most colors in this bulletin are available in both DUCO and DULUX; however, it should be noted that it is not always possible to make close matches in DUCO to DULUX colors and vice versa.

Every possible precaution is taken to provide the refinish trade with accurate DUCO and DULUX color matches. Due to circumstances beyond our control, we cannot be responsible for inaccurate color matches resulting from changes in standards by automobile manufacturers without our knowledge, change of car colors on aging, and color variances caused by application methods, etc. We will assume responsibility only for factory color matches to established Du Pont color standards.

As the accuracy of color matches made with the Du Pont Color Blending Service depends on the individual operating the equipment, we will assume responsibility only for the uniformity of our mixing enamels and lacquers.

DUCO Stock Order Number	Color	Part No.
2512-H	†Cinnamon Bronze Metallic	N-72
2772	†Medium Blue Metallic	N-81
2773	†Medium Green Metallic	N-80

†Also used as exterior colors.

NOTE: Where semi-gloss is required, addition of #4528 Flattening Compound is recommended in accordance with label directions.

Color combination numbers appear on a plate on the right side of the firewall under the hood.

NOTE: The colors in this bulletin are available in DUCO with a few matches in DULUX; however, it should be noted that it is not always possible to make close matches in DUCO to DULUX colors and vice versa.

Every possible precaution is taken to provide the refinish trade with accurate DUCO and DULUX color matches. Due to circumstances beyond our control, we cannot be responsible for inaccurate color matches resulting from changes in standards by automobile manufacturers without our knowledge, change of car colors on aging, and color variances caused by application methods, etc. We will assume responsibility only for factory color matches to established Du Pont color standards.

As the accuracy of color matches made with the Du Pont Color Blending Service depends on the individual operating the equipment, we will assume responsibility only for the uniformity of our mixing enamels and lacquers.
