ORDER ONLY BY "DUCO" STOCK ORDER NUMBER

DUCO tinting colors, for the various formulas, are shown where available. These colors are listed in the order of their importance in the event that tinting is necessary.

Color numbers and symbols appear on a sticker affixed to the underneath portion of the right side of the instrument panel, directly under the glove compartment.

NOTE: Most colors in this bulletin are available in both DUCO and DULUX; however, it should be noted that it is not always possible to make close matches in DUCO to DULUX colors and vice versa.

Every possible precaution is taken to provide the refinish trade with accurate DUCO and DULUX color matches. Due to circumstances beyond our control, we cannot be responsible for inaccurate color matches resulting from changes in standards by automobile manufacturers without our knowledge, change of car colors on aging, and color variances caused by application methods, etc. We will assume responsibility only for factory color matches to established Du Pont color standards.

As the accuracy of color matches made with the Du Pont Color Blending Service depends on the individual operating the equipment, we will assume responsibility only for the uniformity of our mixing enamels and lacquers.

Parchment White	Parade Red

The above two-tone combinations apply to all models except the *Scotsman.* This model is finished in solid colors only.

Color code numbers and symbols will appear on a sticker affixed to the underneath portion of the instrument panel directly below the glove compartment.

NOTE: The colors in this bulletin are available in DUCO with a few matches in DULUX; however, it should be noted that it is not always possible to make close matches in DUCO to DULUX colors and vice versa.

Every possible precaution is taken to provide the refinish trade with accurate DUCO and DULUX color matches. Due to circumstances beyond our control, we cannot be responsible for inaccurate color matches resulting from changes in standards by automobile manufacturers without our knowledge, change of car colors on aging, and color variances caused by application methods, etc. We will assume responsibility only for factory color matches to established Du Pont color standards.

As the accuracy of color matches made with the Du Pont Color Blending Service depends on the individual operating the equipment, we will assume responsibility only for the uniformity of our mixing enamels and lacquers.

ISSUED OCTOBER 30, 1958

www.lackman.se

1959 STUDEBAKER COLOR COMBINATIONS

Over-all combinations are so indicated on Sheet 1 of this Motor Car Service Bulletin.

There will be no factory two-toning of the 1959 Model Studebaker Passenger Cars.

Color code numbers and symbols will appear on a sticker affixed to the underneath portion of the instrument panel directly below the glove compartment.

NOTE: The colors in this bulletin are available in DUCO with a few matches in DULUX; however, it should be noted that it is not always possible to make close matches in DUCO to DULUX colors and vice versa.

Every possible precaution is taken to provide the refinish trade with accurate DUCO and DULUX color matches. Due to circumstances beyond our control, we cannot be responsible for inaccurate color matches resulting from changes in standards by automobile manufacturers without our knowledge, change of car colors on aging, and color variances caused by application methods, etc. We will assume responsibility only for factory color matches to established Du Pont color standards.

As the accuracy of color matches made with the Du Pont Color Blending Service depends on the individual operating the equipment, we will assume responsibility only for the uniformity of our mixing enamels and lacquers.
