

MV AGUSTA CELEBRATES 50th ANNIVERSARY of ITALIAN AEROBATIC TEAM with the F4 FRECCE TRICOLORI

Varese, 1st September 2010 - Admiration, astonishment, magic. These are the feelings that the exhibitions of the Italian Aerobatic Team arise, since its foundation. A cohesive group of air force pilots capable of proudly taking the Italian colours worldwide, during its long history, in conjunction with the highest level of professionalism, performance and elegance. These results are the consequence of a methodical and ongoing commitment to the relentless pursuit of perfection. Values that also MV Agusta embodies in its history, in the brand and in its men. Guiding principles it shares with the legendary "Frecce Tricolori", a common awareness of being an icon of "Italian Style", synonymous with technical excellence and unparalleled style.

To seal the common objectives, on the 50th anniversary of the National Aerobatic Team, MV Agusta dresses the most powerful and prestigious of its creations, the new F4, in the colours of the sky and of the Italian flag, producing 11 unique motorcycles in "Frecce Tricolori" livery.

The eleven precious "pieces", prepared for the occasion with special components in noble materials such as carbonfibre and titanium, are numbered exactly as the eleven aerobatic aircraft, and are inspired by their distinctive graphics. A small silver plate on the steering head indicates the number and id of the aircraft to which each of the bikes is associated.

Delivery of the motorcycles will take place at the military airport of Rivolto, the base of the Frecce Tricolori, during a dedicated event, a unique opportunity to spend an entire day with the pilots of the Italian Aerobatic Team.

For information and reservations: from Italy 800.364406, from abroad + 39.0332.254.724.
