PROFESSIONAL TRAINING TECHNOLOGIES FOR SHOOTERS BY SHOOTERS

ABOUT LASER AMMO

Repetition is the key to muscle memory

For a shooter, repetition can represent a considerable amount of ammunition to perfect a trigger squeeze. With the high cost of ammo, dry-firing represents an affordable training alternative.

1 WEEK
20%

Shooting is a deteriorating skill. In as little as one week after leaving the range, the average shooter's skills can diminish by 20%.

Dry Firing allows you to continually practice, maintain and improve your shooting skills while away from the range.

Get the Laser Ammo Advantage with SureStrike™. Practicing your stance, presentation, sight alignment, sight picture, breath control, trigger pull & follow through has never been easier.

Laser Ammo USA, Inc. develops and sells firearms training products for civilian, law enforcement, and military markets. Owned and operated by former Israeli and US military combat veterans, Laser Ammo is dedicated to providing serious training for serious professionals. Our products, including the SureStrike™ dry fire training system, electronic targets, Smokeless Range® Simulator, and more are used by military, law enforcement agencies, NRA and USCCA instructors, and responsible firearm owners worldwide.

The Laser Ammo family of products allows operators to utilize their specific firearms platforms, including Airsoft or recoil conversion systems, for dry fire training. From basic reactive target systems through high end simulators, to fully customizable solutions for Force on Force (MILES) training, Laser Ammo is simply serious training for serious professionals.

The company's research and development is conducted in its Israeli offices. Laser Ammo USA and Nordic Laser Ammo in Europe are chiefly responsible for sales and marketing. The company's presence in Israel puts it at the crossroads of leading weapons technology development.

Laser Ammo benefits from the input of numerous professionals in engineering and weapons training for civilian, military, and law enforcement markets, which has led to the creation of products that are ideally suited for each sector.

Having our R&D at the company's Israeli headquarters also allows field-testing by top military and Law enforcement units. At the same time, our US and European locations ensure that we are close to our retailers and end users. Our products were created as a result of our users' needs; and we intend to maintain that development philosophy. Laser Ammo USA and Laser Ammo Europe keep us close to the action.

Those of you who are not able to make it to the range as often as you would like, can still practice the fundamentals of shooting, through dry-firing in the convenience of your home or office. Dry-firing is the single most efficient and safest way to increase your skills regardless of your experience level. It allows you to increase proficiency with your draw, speed up your sight acquisition, gain better trigger control, increase speed and accuracy of your reloads, smooths and speeds up your transitions, assists in breath

control and heart rate, and allows you incorporate basic movements. Starting out slow ensures that your fundamentals are flawless through repetition, before increasing speed or distance to your targets.

By continuously repeating these drills without errors, you will build "muscle memory" and will allow the techniques to ingrain in to your subconscious. This will allow for your actions to be duplicated automatically when you return to the range or if you are ever thrust in to a shooting incident.

The SureStrike™ is a high-end laser training system for pistols, rifles and airsoft that assists all levels of shooters in building and maintaining the correct firearms skills, by emitting a laser pulse simulating a bullet's impact point. The SureStrike™ turns the typical dry firing session into a powerful and rewarding learning experience where the shooter can easily recognize and correct any errors ingrained in muscle memory.

The SureStrike™ helps shooters obtain a stable grip, control trigger squeeze, reduce response time and aid in obtaining perfect sight alignment and sight picture.

PRACTICE SHOOTING ANYTIME, ANYWHERE WITH SURESTRIKE™ KITS

The SureStrike™ Laser Training Kits, allows any level shooter, to practice safe marksmanship and gun-handling drills with one, three or four different calibers of their own firearms.

All of the SureStrike™ Kits come standard with a convenient protective carrying case, red (visible) or infrared (invisible) laser cartridge, the patented UhrSecure™ safety pipe, safety extension, high visibility safety nut, caliber adapters, battery pack, and six reflective targets.

This makes it easy and convenient for any shooter to keep the equipment safe and secure while tossing it in your range bag or simply put it in your pocket.

The SureStrike™ Lasers are the most accurate and robust laser training aides available in the market. The laser cartridge is built with stainless-steel body, high quality glass lens, and action cap that controls the function of the laser. The action cap, used as a snap cap, will protect your firing pin with a warranty of 5,000 shots (or one year) guaranteed! This makes the SureStrike™ Kit the most versatile and safe training tool on the planet.

IMPROVE ACCURACY AND REACTION TIME IN ANY ROOM OF THE HOUSE

The LaserPET™ (Personal Electronic Target) is a standalone advanced laser training reactive target, that allows shooters to practice the five fundamental drills set by the NRA by engaging a target anytime, anywhere.

The LaserPET™ will improve your reaction time, shot time, accuracy and will continue to enhance your shooting skills with four operational modes and five target cards. The LaserPET™ can keep track of hits, act as a shot timer and assist the shooter to speed up his or her follow-up shots and reload times. The LaserPET™ gives the shooter instant audio and visual feedback when a hit occurs on the easy-to-read screen which displays hits and reaction times.

Perfect to use with the SureStrike™ Laser Cartridge to improve your skills and marksmanship with any firearm. Precision shooters, long-range shooters and hunters can practice their accuracy, windage and elevation with the LaserPET™. The LaserPET™ offers four different operational modes; Shot Counter, Shot Timer, Speed Shooting and Double-Tap. The LaserPET™ includes a set of five 2" targets, tripod and AAA batteries. The LaserPET™ only works with red, visible lasers.

ADAPT FROM 9MM TO 40MM GRENADE LAUNCHER & EVERYTHING IN BETWEEN

The SureStrike™ Laser Cartridges can also be used with the Laser Ammo Caliber Adapter System to fit a variety of calibers for semi-automatic pistols, revolvers, shotguns and rifles.

The unique Caliber Adapter System allows the 9mm SureStrike™ Laser Cartridge to be used in multiple calibers, eliminating the need to buy a separate cartridge for each caliber.

No tools are required for installation. Simply thread the adapter into the 9mm SureStrike™ Laser assembly and you are ready to go.

All semi-automatic adapter rings are used with the 9mm Action Cap and the UhrSecure Safety System (safety pipe, extension and nut.) The patented UhrSecure safety system is used for visual indication that the gun is safe and aligns the laser with the barrel, making it the safest and most accurate laser in existence.

**All semi-automatic pistol adapter rings require the use of a safety pipe and nut.*

"REFILL" YOUR CARTRIDGE & CHOOSE DRYFIRE OR BORESIGHT WITH INTERCHANGABLE CAPS

A unique ability of the SureStrike™ training system is to be able to change the functionality and behavior of the laser cartridge according to your training needs. By using interchangeable Action Caps, each having a different program, the user can decide if he wants to dry fire, a borsight or both.

This feature makes SureStrike™ the most versatile dry fire training system available today. The SureStrike™ Action Caps have a microprocessor controlled primer which activates the SureStrike™ and also performs as a snap cap, keeping the firing mechanism safe from damage while dry firing.

The SureStrike™ Vibration cap is not activated by firing pin and therefore it doesn't have the primer. Instead, it is specifically programmed and built for airsoft use with one of our airsoft adapters.

We guarantee all of our Action Caps for at least 5,000 shots, though, many shooters have reported thousands of extra shots from their SureStrike™ units. By simply replacing the Action Caps, the shooter can refill the SureStrike™ as many times as needed.

TAKE DRYFIRE TO THE NEXT LEVEL WITH RECOIL ENABLED TRAINING

Safe and Realistic Firearms Training – Anytime, Anywhere.

Take your training to a whole new level. Many shooters find recoil enabled training to be the most realistic way to maintain and perfect their shooting skills indoors, without a live range.

Force on force airsoft training is commonly used by the military and Law Enforcement and has become more popular among shooters due to its low cost, full blow back, and automatic reset of the firearm. The realistic look and feel of the firearm enforces muscle memory and enhances safety skills of the shooter.

Using a recoil enabled pistol or rifle adds realism to training and is the best way to train for real life situations, with simulated sound and recoil.

Recoil Enabled Training Firearms are completely safe and cost a fraction of training without live ammunition.

Pair one of the Recoil Enabled firearms with the Laser Ammo I-MTTs reactive targets or Smokeless Range® and take your shooting skills to a whole new level.

We Support the Shooting Sport!

Our products are being used by many competitor shooters around the world. Each of our products are designed to maximize a shooter's time training and save on cost by allowing the shooters to train more often in their convenience of their own home, spending less money on ammo. Our new Smokeless Range® pro line is built to replicate exact course of IPSC competition. Our Fast Draw Simulator is built to the highest requirements of the Fast Draw community.

WE ARE PROUD TO SPONSOR AND SUPPORT SOME OF THE BEST WORLDWIDE SHOOTERS
