

**CARVED ORNAMENTS
IN SOLID WOOD**

CATALOGUE 2018

www.candidus-pruegger.com

INTRODUCTION

CARVED ORNAMENTS IN SOLID WOOD

ABOUT US

The company Candidus Prugger produces carved ornaments in solid wood and Bendywood®.

The results of our annual customer survey show that they are satisfied with our service and the quality of our carved ornaments in solid wood.

Indeed, we give the greatest importance to quality and service. 80% of our carved ornaments in solid wood are exported worldwide and our employees speak 5 languages.

Thanks to the quality of our carved ornaments in solid wood and the continuous introduction of new product lines developed in collaboration with customers, architects and designers, we are nowadays not only well-positioned in the national market, but also in many export-markets.

IMPROVED DOCUMENTATION OF OUR CARVED ORNAMENTS IN SOLID WOOD

Considerably improved documentation is available on our website www.candidus-prugger.com, allowing you to:

- download and print pictures of each item in DIN A4 format – partly with side view and section shape – by simply clicking on the picture. These pictures are of good quality and can also be used in your offer to customers.
- inform yourself continuously about new items – see category “Novelties”
- view and print the catalogue in PDF format

In this way, you have access to pictures and dimensions of about 800 different items.

PRODUCT INFORMATION

CARVED ORNAMENTS IN SOLID WOOD

SIZES AND PICTURES

The sizes of the carved ornaments indicated on this website are approximate ones. They are in millimeter and indicate the approx. width (W) x approx. height (H) x approx. thickness (D) of the carved ornaments in solid wood.

The pictures of the carved ornaments in solid wood shown on the website are indicative. Slight differences in design are possible.

PRODUCTION PROCESS

We need to distinguish between:

a) Carvings (like rosettes, capitals, embossed mouldings, etc.):

The carvings are made of hardwood, mainly beech. They are machine-carved and subsequently embossed in metal forms. As the surface of the wood gets compressed through this embossing procedure, the wood isn't waterproof. For this reason we dis advise using these items outdoors, such as for front doors and windows, for instance: for this purpose a selection of **hand-carved items** is available in our product range.

b) Carved mouldings and milled items:

The carved mouldings are milled and machine-carved (so not embossed). Therefore they are also suited for outdoor use.

DELIVERY TIME

All items in our catalogue are in stock and we do our best to ship every order **within only 8 days**.

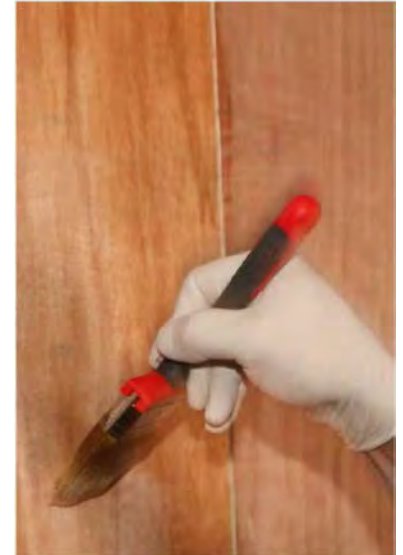

STAINING AND VARNISHING

CARVED ORNAMENTS IN SOLID WOOD

It is disadvised to use water-based varnishes and stains for the embossed carvings. Solely use synthetic products for these items, as penetrating water would let the items swell and roughens them and small cracks would appear that ought to be mended!

In case the use of water-based products cannot be avoided, they need to be applied very carefully by hand using a moist brush (not dripping wet) so that the product cannot profoundly penetrate the wood. Subsequently we advise drying the items immediately using a hair-dryer.

The same procedure can also be used to eliminate the smooth and glossy surface of the ornaments. In this case it should also be avoided that water can penetrate the wood.

RECOMMENDED PRODUCTS FOR STAINING AND VARNISHING BY WAY OF EXAMPLE:

a) For the STAINING it is recommended to use the following synthetic products of the ADLER company:

- Paint finish "Kognak" code 410908 diluted 1:3 with diluent 90318 to obtain the colour OAK
- Paint finish "Maron" code 410909 diluted 1:3 with diluent 90318 to obtain the Colour WALNUT
- Paint finish "Mahagonibraun" code 410910 diluted 1:3 with diluent 90318 to obtain the colour LIGHT CHERRY
- Paint finish "Mahagonirot" code 410912 diluted 1:3 with diluent 90318 to obtain the Colour DARK CHERRY

- b) For the FINISHING it is recommended to use the following polyurethane products of the ADLER company:

LEGNOPUR G10 catalyzed with 10% code 82010 and diluted for 10% - 20% with diluent code 80019

- c) Before WHITE VARNISHING or before GILDING WITH GOLD LEAF it is recommended to apply a GROUND COAT using the following polyurethane products of the ADLER company:

“ADLER PUR-ISOFUELLER BIANCO” code 25505 + 10% catalyst code 82019 +10% diluent code DD 80019

It is advised to use a spray pistol with a spraying nozzle of 1,8mm and to apply multiple thin coats in all directions in order to cover all details.

For any further information please refer to the ADLER reseller in your vicinity.

INDEX – ORNAMENTS IN SOLID WOOD

1. Rosettes:

Small rosettes:	- Small round rosettes	1
	- Small oval rosettes	6
	- Small square rosettes	8
Large rosettes:	- Large round rosettes	11
	- Large oval rosettes	13
	- Large square rosettes	14

2. Corners:

Symmetrical corners:	- Small symmetrical corners	15
	- Large symmetrical corners	17
Corners left-hand and right-hand version (pairs):	- Small corners (pairs)	19
	- Large corners (pairs)	22
