DROP OF MINDFULNESS

Drop of Mindfulness consists of athletic yoga wear for the modern participator. The philosophy behind the collection is to offer functionality and innovative design combined with modern materials which gives maximum comfort and fit for an active workout.

Drop of Mindfulness is a playful, colorful and feminine collection with inspiration from the USA, where the combination of yoga, training and trend are much more developed. The products are designed so that they fit to all kind of training, and also like a nice and comfortable outfit for every day.

We want to show a wise philosophy of life, to live in the present, give inspiration to be active and to feel beautiful, outside and inside. This collection has been inspired by early morning sunbeam and cherry blossom bloom when summer is knocking on our door. To use the nature as a tool for your active lifestyle. Be as bright as a summer dream!

Drop of Mindfulness donate a part of their selling to Project Playground which is an organization that works for a better world and future for kids and youths in the suburbs of South Africa.

Project Playground

Drop of Mindfulness donates some of its revenue for the benefit of Project Playgrounds work with children and youth in disadvantage areas in South Africa's townships.

Project Playground provide free activities after school in a safe environment to let children be children and forget about the worries that often occur in these areas. Project Playgrounds are convinced that through organized sports, play and recreational activities, focusing on children's self-belief and motivate them to want to care about their future, it will in the long run prevent problem as drugs, crime, HIV, unemployment and violence.
